

Wind Study Workshop Agenda

Thursday, March 15, 2007

- 9:00 a.m. Introductions and Background Information – Bart Kline/Ric Gale/Karl Bokenkamp
- 9:15 a.m. Wind Integration Study Review and Methodology – Bob Zavadil (EnerNex), Phil DeVol (Idaho Power), and Rick Haener (Idaho Power)
- Overview of Study Design
Wind Data and Modeling
Electric Utility Operations
Estimation of Reserve Requirements
Imposition of Reserve Requirements in the Vista Model
Other Model Inputs
Modeling Results
- 10:45 a.m. Break
- 11:00 a.m. Discussion of Submitted Questions:
- Renewable Northwest Project's Questions:
Use of 2000 prices; Wind variability; Reserve counting; Use of persistence wind forecast; Flat wind case – 24 hr vs. HL and LL split; Overall modeling methodology – suggests holding only down regulation for HLH
- 12:00 p.m. Lunch – on your own
- 1:00 p.m. Continued Discussion of Submitted Questions:
- RNP's Questions
Others Questions
- 2:15 p.m. IPCo Sensitivity Analyses (time permitting)
- 2:45 p.m. Break
- 3:00 p.m. New Questions/Comments/Concerns
- 3:45 p.m. Review List of Action Items & Administrative Details
- 4:00 p.m. Adjourn
