

Net Meter Application

25 kW Residential/100 kW Commercial

This Net Metering application is an interconnection request for Net Metering service under Idaho Power Company's Rate Schedule 84 within the State of Idaho. A customer must first be connected to and be receiving service from Idaho Power in order to have an existing meter.

A completed application and deposit will initiate the process for Idaho Power to review the physical location and existing Idaho Power facilities to deliver the customer's excess energy (wind, solar, hydro, biomass & fuel cell technologies) from the customer meter. For additional information, go to <http://www.idahopower.com/AboutUs/BusinessToBusiness/GenerationInterconnect/default.cfm>.
