

**Building Efficiency**  
 Commercial-Industrial New Construction  
 Incentive Final Application

Effective January 1, 2009

**Customer Information**

Applicant Name		Account Number	Date
Facility Address		City	State Zip
Mailing Address (if different)		City	State Zip
Primary Contact Name		Title	
Phone	Fax	E-mail	
Secondary Contact Name		Title	
Phone	Fax	E-mail	
Project Description (new, remodel, or expansion)		Building Area	
Building Type (i.e., office, industrial, grocery, hospital)		Describe "Other" (if applicable)	
Applicant Status (i.e., owner-occupied, non-owner occupant paying utility)		Tax Status (i.e., Corporation, Government, Sole Proprietorship)	
Start Date		Completion Date	

**Contractor Information**

Architect Company Name	Phone
Contact Person	E-mail
Engineer Company Name	Phone
Contact Person	E-mail
General Contractor Company Name	Phone
Contact Person	E-mail

Mail Payment To (Check One):  Customer  Third Party (Complete information below)  
 Make Check Payable To (Check One):  Customer  Third Party (Complete information below)

**Payment Information**

Name of Third Party			
Mailing Address		City	State Zip
Contact Person		Title	
Phone	Fax	E-mail	
Tax Status		Federal Tax ID Number	

**Applicant Agreement**

I, the undersigned, declare that I am a duly authorized representative of the owner of the building described above; that my project has met all the terms and conditions of the Building Efficiency program; and it has been constructed to meet the applicable specifications listed on the attached worksheet(s).

Applicant Name (please print)	Applicant Signature	Date

When completed, fax your final application worksheets and other supporting materials to: (208) 388-5750 or mail to: Idaho Power, Attn: Building Efficiency CHQ-7, PO Box 70, Boise, ID 83707-0070.

# Building Efficiency Terms & Conditions

## Applicant Information & Agreement

**Incentive Offer:** This incentive program covers projects for any commercial or industrial facility that is served by Idaho Power on schedules 7, 9, or 19. Residential buildings, irrigation systems, and street lighting accounts are not eligible. Details of this program, including incentive levels, are subject to change without prior notice. Payments for each project are determined based on the building codes and the incentive levels that are in place when the building permit is issued.

**Preliminary Application:** This program requires a Preliminary Application which reserves incentive funds for your project. No assurance of incentive payments for your project can be made without a Preliminary Application. Payments will not be made until the project has been completed, the Final Application has been submitted, and the supporting materials have been reviewed.

**Proof of Purchase:** Equipment must be purchased and installed before payment can be issued. Sales slips, invoices, or other documentation itemizing the new equipment purchased must accompany each incentive application. The proof of purchase should indicate the size, type, make, model, or part number of each product installed, and the date of purchase.

**Payment:** Submitting the Final Application with incomplete or missing information may delay check processing and delivery. False information may lead to cancellation of this and future incentive applications and/or a claim by Idaho Power for the return of any incentive. Idaho Power cannot pay more than 100% of the product price and labor shown on the invoice. Projects receiving incentive payments through any other incentive program are not eligible for any payment through this program for the same equipment or features.

**Third Party Payment:** Third party payments are possible. If the incentive check is to be made payable to a third party, the "Third Party Payment" box must be checked, and the required information on the payee must be provided in that section of the application. While the applicant understands that they will not receive the incentive check, that fact does not exempt the applicant from any of the requirements of this agreement.

**Project Review and Verification:** Any project may be subject to an on-site inspection prior to payment, either before or after the project is completed. Idaho Power reserves the right to verify sales transactions and inspect all installations. Projects applying for larger incentive payments or those with less-detailed documentation will be more likely to be subject to an on-site inspection or further review inspection.

**Tax Liability:** The applicant is responsible for any tax liability imposed as a result of the payment of incentives. Taxpayer identification numbers are required from each applicant prior to payment. Incentive payments greater than \$600 will be reported to the IRS each year.

**Endorsement:** Idaho Power does not endorse any particular manufacturer, product, system design, or design professional in promoting this program. Measures on the application are not necessarily applicable for installation in every building. The omission of other measures does not, in any way, imply that they may not also be effective.

**Safety and Building Codes:** The applicant agrees that each measure complies with all federal, state, and local safety, building, and environmental rules, codes, and regulations. All products must be UL-listed and installed per manufacturer's instructions.

**Appropriate Waste Disposal:** Any waste generated as a result of this project must be properly disposed of or recycled. The applicant agrees that all waste generated has been disposed of or recycled in a manner which complies with all federal, state, and local safety, building, and environmental rules, codes, and regulations.

**Disclaimer of Warranties:** Idaho Power neither expressly nor implicitly warrants the performance of installed equipment. The applicant understands that, while Idaho Power may provide an incentive payment, Idaho Power is not liable for the proper completion of the work performed or the proper performance of any equipment purchased. Contact your contractor for details regarding equipment warranties.

**Information Release:** The applicant understands and agrees that Idaho Power and/or its representatives may include a description of this project and other project details in its case studies, brochures, press releases, advertisements, and other marketing materials presented to the public. Idaho Power will attempt to provide notice prior to the use of such information. By providing Idaho Power with timely written notice, the applicant can veto the inclusion of specific details in such materials.

Effective January 1, 2009

**Measure Information**

*Lighting*

	Lighting Load		Hours of Operation	Floor Area	Incentive
