Open Loop Water Source Heat Pump Incentive Application

Idaho Power Heating and Cooling Efficiency Program Terms and Conditions

Incentive Availability

Incentive qualifications and amounts are subject to change or termination at any time. Incentives will be processed on a first-come, first-served basis. Visit the program's Web site at www.idahopower.com/heatingcooling to determine incentive availability.

Incentive Qualifications

Qualifying efficiency measures may be found online at www.idahopower.com/heatingcooling, or by calling 1-866-692-9176. Efficiency measures can be installed in site-built single-family, multi-family or manufactured homes. Limited to one unit installed per household. Please refer to the program's Web site for details. **All measures must be installed by a Participating Installer working for a Participating Company.** A list of Participating Companies can be found at www.idahopower.com/heatingcooling.

Qualifying Applicants

Residential customers of Idaho Power may qualify, as well as property owners and managers purchasing qualified equipment for residential rental properties served by Idaho Power.

Qualifying Equipment

All equipment must be new and purchased and installed prior to submitting an Incentive Application. Equipment must have been purchased and installed on or after January 1, 2009. A qualified open loop water source heat pump can replace an electric heating system providing that the heat pump is the main source of heat with electric back-up. A qualified open loop water source heat pump can also replace an oil or propane heating system providing that the home is in a location where natural gas service is not available. Qualifying products may be found online at www.idahopower.com/heatingcooling or by calling 1-866-692-9176.

Application Details

Applications must include all information requested. Failure to provide this information may result in the delay or denial of the incentive. Idaho Power reserves the right to conduct random on-site inspections to verify information provided on the application.

Idaho Power issues incentives in the form of checks and not utility bill credits. Idaho Power is not responsible if your Participating Company, who provides and installs the equipment, provides inaccurate information about the amount and/or conditions of the actual incentive. Idaho Power will not pay incentives for equipment that is mislabeled or misrepresented regarding incentive qualifications. Households receiving incentives under the Idaho Power Heating and Cooling Efficiency Program may not receive incentives for the same equipment under another company program.

Incentive Limitations and Limitation of Damages

Payment of the incentive by Idaho Power does not guarantee the performance of qualifying/installed efficiency measures and does not guarantee that the qualifying/installed efficiency measures will deliver any specified amount of energy or cost savings. The customer shall independently evaluate any information related to the qualifying measure. Neither Idaho Power, its parent company, affiliates, subsidiaries, directors, officers, employees, agents, representatives, successors, assigns nor its contractors make any warranty, expressed or implied, or assume any legal liability or responsibility for the accuracy, completeness or usefulness of any information, estimated savings, benefits, products or processes, or service by trade name, trademark, manufacturer, or otherwise does not necessarily constitute or imply its endorsement, recommendation, or favoring by Idaho Power, its parent company, affiliates, subsidiaries, officers, employees, or its contractors.

The utility makes no representation of warranty, and assumes no liability with respect to quality, safety, performance, or other aspect of any design, system or appliance installed pursuant to this application, and expressly disclaims any such representation, warranty or liability. Applicant agrees to indemnify Idaho Power Company, its parent company, affiliates, subsidiaries, directors, officers, employees, agents, representatives, successors and assigns of each against all loss, damage, expense, and liability arising from any measures installed.
