

TREES around your home can increase its value up to 15% or more. The trees you plant remove CO<sub>2</sub> from the air, produce oxygen and give songbirds a home. Trees provide many other benefits:

A WINDBREAK can lower heating bills 10-20%.

NUT TREES can be incorporated into windbreaks or serve as shade trees.

A BACKYARD ORCHARD lets you grow your own fruit.

Many FLOWERING TREES also produce food for wildlife.

STREET TREES shade the concrete and help cool the entire neighborhood.

SHADE TREES planted east and west of your home can cut cooling costs 15-35%.
