

Do you know someone who could use an energy house call before winter?

Idaho Power wants to improve the energy efficiency of electrically-heated **manufactured and mobile homes** in your area.

To qualify for a **FREE** house call, residents of manufactured homes should phone **1-800-827-8161**.

Energy House Calls
for Manufactured Homes

Energy House Calls
for Manufactured Homes

Do you know someone who could use an energy house call?

MOST MANUFACTURED HOMES HAVE DUCTS THAT LEAK

Up to one-third of the warm air from the furnace leaks into the crawlspace of most manufactured homes. Sealing leaky ducts provides a more comfortable home *and* savings on your electrical bill.

A FREE ENERGY HOUSE CALL INCLUDES:

- Testing heating system ducts for air leaks.
- Fixing the leaks.
- Replacing furnace air filters and installing compact fluorescent light bulbs.

GET ACCESS TO TRAINED EXPERTS

Idaho Power has partnered with certified contractors who have completed special training to perform these services at no charge.

For a **FREE** house call, residents of manufactured and mobile homes should phone 1-800-827-8161 by **DECEMBER 8th** to schedule an appointment.
