

The Green Power Program

a resource of choice

One by one, your neighbors and local businesses have chosen to make our environment better by enrolling in Idaho Power's Green Power Program.

It's clean.

Green power comes from environmentally-certified wind and solar energy.

It's simple.

A \$6 monthly purchase is equal to removing a year's worth of vehicle emissions from our air.

It's in your community.

Participation supports Solar 4R Schools, bringing solar energy to the roofs of area schools.

The Green Power Program

Take a step to make the world a little greener.

- Yes!** Send me more detail on the environmental benefits of the Green Power Program.
- Yes!** Sign me up for the Green Power Program today.

The additional cost of certified green energy is less than a penny per kWh – that's about \$5 per month to ensure 50% of a typical household's electricity comes from green power.

For sign up or additional information, call (208) 388-2323 in the Treasure Valley or 800-488-6151, or visit our Web site at www.idahopower.com/greenpower.
