

Help Make Our Future A Little Greener

Join over 2,600 neighbors and businesses that have enrolled in the Green Power Program. Participants voluntarily contribute an additional dollar amount on their monthly power bill. Funds are used to support the growth and development of certified, environmentally-sound wind and solar power.

You can make a difference... now and in the future.

Return this form with your bill payment or sign up at

The Green Power Program

Join your neighbors and local businesses who've enrolled in Idaho Power's Green Power Program.

A \$6 monthly purchase is equal to removing a year's worth of vehicle emissions from our air.

In 2008, customers contributing to the program purchased more than 28 million kilowatt-hours of green power. That's an environmental impact equivalent to:

- planting over 5,300 acres of forest, or
- removing emissions from over 3,300 cars.

Learn more at www.idahopower.com/greenpower or call (208) 388-2323, (800) 488-6151 outside the Treasure Valley.
