

**What did the insulation
say to the attic?**

"I've got you covered."

Home Improvement Program

*Make your home comfortable
and efficient year-round.
Get 15 cents per-square-foot
for professional installation
of attic insulation.*

What are the program requirements?

- Only attic insulation qualifies for an incentive, not wall or under-floor insulation.
- Insulation must be professionally installed by an insulation contractor. Self-installed insulation will not qualify.
- An incentive will be paid on added attic insulation up to R-50.
- New insulation must increase the R-value by R-10 or greater. This applies to both batt and blown-in insulation.
- Only existing, single-family homes qualify for an incentive. New construction or multi-family dwellings do not qualify.
- Homes must have central air conditioning **or** be electrically heated to qualify.

For program information, including how to participate, visit www.idahopower.com/homeimprovement

Idaho Power offers a cash incentive of 15 cents per-square-foot for professional installation of attic insulation.
