

Looking For A New Home?

Look For An ENERGY STAR® Home.

An IDACORP Company

ENERGY STAR homes are designed, built and performance tested to offer enhanced comfort, healthier indoor air, energy savings and peace of mind.

These homes are at least 20 percent more efficient than homes built to standard codes, making them some of the most energy efficient homes on the market today.

Visit www.idahopower.com/energystarhomes to learn more about ENERGY STAR homes and to find an ENERGY STAR home builder.
