

## Help Make Our Future A Little Greener

Join more than 2,500 of your neighbors who support renewable energy by enrolling in the Green Power Program. Idaho Power partners with an independent non-profit, the Bonneville Environmental Foundation, to promote the growth and development of certified, environmentally-sound wind and solar power.

You can make a difference...now and in the future.

## Support Renewable Energy

*Join your neighbors and local businesses who have enrolled in Idaho Power's Green Power Program*

A \$7 monthly purchase is equal to removing a year's worth of vehicle emissions from our air.\*

In 2009, program participants supported more than 27 million kilowatt-hours of green power. That's an environmental impact equivalent to:

- planting over 5,100 acres of forest, or
- removing emissions from over 3,200 cars.

Learn more at [www.idahopower.com/greenpower](http://www.idahopower.com/greenpower) or call (208) 388-2323, (800) 488-6151 outside the Treasure Valley.

**Yes!** Sign me up for the Green Power Program.
