

Idaho Cost Information

The cost information below has been extracted from the "Rule H Line Installation Tariffs". You may view the tariffs on <http://www.idahopower.com/AboutUs/RatesRegulatory/Tariffs/default.cfm>. Copies are available by contacting Idaho Power or the respective Public Utilities Commission.

Underground Services (400 amp max.)

The non-refundable charge for a new Schedule 1 or Schedule 7, underground 1-Ø service consists of a Base Charge plus a Distance Charge. These charges do not apply to services with meter bases larger than 400 amps.

Charges for installation of underground service are not included in Cost Quotes and are billed to the customers after construction is complete.

Base Charge

From underground	\$41.00
From overhead (2" pole riser)	\$399.00
From overhead (3" pole riser)	\$542.00

Distance Charge

With 1/0 service cable	\$2.04/ft
With 4/0 service cable	\$2.67/ft
With 350 service cable	\$4.11/ft

NOTE. Use the following Distance Charges if Idaho Power provides the trench and conduit:

Distance Charge (IPCo trench & conduit)

With 1/0 cable	\$6.94/ft
With 4/0 cable	\$7.57/ft
With 350 cable	\$9.64/ft

There may also be additional charges for unusual trenching conditions.

Conformance

Each installation is **subject to review and inspection** at any time by Idaho Power for conformance to these specifications.

If a non-conformance is discovered such as the conduit length, route, depth, etc., or if you are not ready when the installation crew arrives, the cable **WILL NOT BE INSTALLED** and **you will be charged \$68.00** for each return trip. After the non-compliance is corrected, contact Idaho Power to reschedule the installation.

Temporary Services

The non-refundable charge for installing a 1-Ø temporary service is:

From <u>underground</u>	\$41.00
The customer-provided meter pole must be securely set within 2' of the handhole or padmounted transformer.	
From <u>overhead</u>	\$180.00
The customer-provided meter pole must be securely set in a location that will allow the temporary service conductor to be attached to the permanent meter location by merely relocating it. A maximum of 100' of #2 Tx conductor is allowed.	

TEMPORARY SERVICE NOTES.

- ◆ Electrical facilities provided by the customer must be properly grounded, electrically and structurally safe, provide adequate clearances, and ready for connection.
- ◆ The customer must obtain all permits required by the applicable state, county, or municipal governments before calling Idaho Power and provide copies or verification, as required.
- ◆ The site must be inspected, if required.
- ◆ All conditions must be met before the service will be connected. *(If any condition is not met, the service will not be connected and the customer will be billed \$41.00 per trip each time Idaho Power dispatches personnel to connect it.)*

NOTE. Charges shown are subject to change. Call Idaho Power for current pricing.
