

Net Meter Application

Maximum Size: 25 kW Residential/100 kW Commercial

This Net Metering application is an interconnection request for existing accounts to apply for Net Metering service under Idaho Power Company's Rate Schedule 84 within the States of Idaho and Oregon.

A completed application and deposit will initiate the process for Idaho Power to review the physical location and existing Idaho Power facilities to deliver the customer's excess energy (wind, solar, hydro, biomass and fuel cell technologies) from the customer meter. For additional information, go to <http://www.idahopower.com/netmetering>.

* Required Fields

1. Project Information

a. Account Holder*	h. Project Size kW*
b. Account Number*	i. Project Type* Solar Wind Other (describe): _____
c. Project Name	If solar: Number of Modules: _____ Orientation: N NE S SE SW E W If fixed, approximate tilt from horizontal: _____ Tracker? Yes No
d. Proposed In-Service Date (mm/dd/yyyy)*	If wind: Number of Turbines: _____ Turbine Manufacturer: _____
e. Total Name-Plate Rating (in kW) of Existing Projects at this Site, if any:*	j. Inverter* Inverter Manufacturer: _____ Inverter Model Number: _____ Inverter Size (watts): _____ Is inverter UL 1741 or IEEE1547 listed? <input type="checkbox"/> Yes <input type="checkbox"/> No If no, what protection type: _____
f. Existing Meter Number*	
g. Please indicate if proposed system is single phase or three phase:*	

2. Project Location

Address*	City*	State*	ZIP*
----------	-------	--------	------

3. \$100 non-refundable application fee enclosed.

4. Project Contact (Installer)

Company*	Contact*
Mailing Address	City State ZIP
Phone (xxx) xxx-xxxx*	Fax (xxx) xxx-xxxx E-Mail*
